Dear Brothers and Sisters in Christ;

Worldview Warriors (WVW) is a ministry that is equipping teens and young adults for a life with Jesus Christ. After attending one of their conferences last year, we really liked what they had to offer and decided to bring them to Kawkawlin Community Church for our youth and area youth to attend. Our speakers were Jason DeZurik, Tim Benjamin, and Michael John Stanley, who was also our musician.

This was the first event we've hosted open to outside teens, so our attendance was quite low. Though it left more time for deeper discussion, and we as youth leaders were able to attend workshops with our teens. We were able to watch our teens discuss some very important issues and grow closer in their walk with God. The part that stuck out the most, was in one of the seminars where they discussed giving your burdens to God, and everyone was encouraged to share a story. During this time we were able to see the teens completely open up and share some very hard times. There was tears, there was honesty, there was pain, and there were struggles that had been buried deep down, but as the holy spirit moved in them, they were able to cope with the past and share their story. They were able to share things even the best of friends usually don't know, they were real, the face they put on to deal with the world was taken off and they were sharing who they really are and what they've been through. It was truly God's work in that room.
